`style=alphabetic`

- Citations are labels made from the authors' names and the year, such as [KP81]; the reference list is in alphabetical order.
- Initials come before the family name: D. E. Knuth.
- Article titles are in quotation marks; book and journal titles are italic.
- An article ends with *In: Journal 11.11 (1981), pp. 1119–1184*.
- The AMS's own journals use numbered citations, [1], which `style=numeric` gives.

**In references.bib:** type titles in title case, with braces around names and acronyms (`{NumPy}`), and journal names in full. This style prints titles in title case, as you type them.
