`style=njit-vancouver`

- Citations are numbers in order of first citation, in square brackets; the reference list numbers them 1., 2., . . .
- Family name, then initials without periods: Knuth DE, Plass MF. Authors are separated by commas only, with no "and".
- No title is in italics or quotation marks.
- An article ends with year, volume, and shortened page range: *1981; 11:1119–84*.
- Books give *City: Publisher, Year*; web pages give *Available from:* the URL and the date you accessed it.

In references.bib: type titles in title case, with braces around names and acronyms (`{NumPy}`), and journal names in full. This style changes article and book titles to sentence case.
