`style=njit-acm`

- Citations are numbers in square brackets, [1]; the reference list is in alphabetical order by author and numbered in that order.
- Given names are spelled out (Donald E. Knuth), and the year follows the authors.
- Journal and book titles are italic.
- An article ends with volume, issue, year in parentheses, and pages: *11, 11 (1981), 1119–1184*.
- Chapters and conference papers: *In Book Title (2nd ed.), Editor (Ed.). Publisher, City, pages.*

In references.bib: type titles in title case, with braces around names and acronyms (`{NumPy}`), and journal names in full. This style changes article titles to sentence case.

In the text: an article [4]; page 23 of a book [5, p. 23].
